

DINAKAR S

Performance Management Analyst | KPI, KRA & Business Performance Analytics
dinakars007@gmail.com | +91-8157009289 | Kochi, Kerala | linkedin.com/in/dinakar26

PROFESSIONAL SUMMARY

Performance Management consultant with hands-on experience designing KPI/KRA frameworks, performance tracking systems, and performance dashboards (Power BI, Excel, SAP BI) that translate business goals into measurable employee and organizational outcomes. Built a KPI/performance measurement ecosystem that cut performance reporting cycle time by 30% and underpinned a board-approved plan supporting 78% business growth for a retail client; partnered with business leaders to standardize goal-setting and performance review structures, and automated performance reporting workflows to improve turnaround by 50%. MBA (Marketing & HR) plus a BCA, with applied training in SQL, Power BI, and Python supporting data-driven performance management and HR analytics.

TECHNICAL SKILLS

- Performance Management & Visualization: Power BI, Tableau, SAP BI, Google Data Studio, Excel (Advanced Pivot Tables, Performance Dashboards, VLOOKUP/XLOOKUP)
- Programming & Data Analysis: Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), SQL (MySQL) — performance data cleaning, trend analysis, aggregation
- Performance Management: KPI/KRA/KRI Design & Management, Goal Setting & Cascading Objectives, Performance Review & Appraisal Cycles, Balanced Scorecard, Gap Analysis, MIS Reporting
- Platforms & Tools: SAP ERP/BI, Microsoft 365, Google Workspace, Google Analytics, HR Analytics, AI/LLM Tooling for performance reporting automation

PROFESSIONAL EXPERIENCE

Project Associate — Performance Management & Business Analytics — *HSJB Global Solutions LLP* Nov 2025 – Present

- Led a performance management diagnostic for a retail chain — mapped 40+ performance and process gaps and built the KPI/performance-tracking evidence base for a board-approved expansion plan targeting 25 outlets (78% outlet growth).
- Engineered a unified Power BI / Excel / SAP BI performance dashboard consolidating 6 siloed reporting streams into one real-time KPI/KRA command centre, giving business leaders same-day visibility into employee and business performance.
- Designed KRA/KPI performance measurement frameworks and cascading goal structures for a multi-department retail org, directly supporting an organizational restructuring that cut role ambiguity across 3 operational tiers.
- Automated performance documentation and reporting pipelines using AI/LLM tooling, cutting performance review turnaround time by 50% and doubling reporting capacity without added headcount.
- Trained 8+ team members on performance dashboarding and KPI tracking workflows, achieving full independent adoption within 2 weeks; maintained zero rework rate across 3 client-facing performance reporting engagements.

Management Trainee — Operations Analyst — *Lulu Hypermarket Pvt Ltd* Apr 2025 – Sep 2025

- Owned 18+ recurring daily/weekly performance and KPI reports covering category revenue, store performance, and inventory metrics, with zero missed SLAs over a 6-month tenure for senior leadership performance reviews.
- Redesigned 5 core Excel/SAP BI performance reporting templates, cutting performance-review preparation time by 20–30% for 3 category and operations teams — equivalent to 4+ analyst-hours reclaimed per week.
- Streamlined SAP ERP/BI data extraction pipelines feeding performance and revenue reporting, cutting manual data-pull effort by ~4 hours/week and improving performance-data freshness from D+2 to D+1.
- Built a Power BI employee performance dashboard tracking productivity and attendance for 200+ employees, feeding real-time performance analytics into goal-setting and shift-planning decisions.
- Consolidated data from 5+ business units into a single Power BI business performance dashboard, adopted as the primary performance-reporting source for C-suite weekly reviews.

DATA & PERFORMANCE ANALYTICS TRAINING

Data Analytics Training Program — *Zoople Technologies* Dec 2025 – Jun 2026

- Completed applied training in Excel, SQL, Power BI, and Python (Pandas) covering performance data cleaning, trend analysis, performance dashboard design, and KPI/KRA reporting, alongside full-time work at HSJB Global Solutions.
- Built an end-to-end Power BI performance reporting project on Excel datasets: data cleaning and transformation, KPI calculation, and an interactive multi-page performance dashboard with slicers and drill-down visuals.

KEY PROJECTS

- Retail Chain Performance Restructuring & Scalability Strategy (HSJB, 2025): Full organizational and performance analysis for a 14-outlet retail chain; built MIS tools and KPI/KRA trackers replacing 3 manual Excel processes, giving leadership live performance visibility.
- Large-Format Retail Store Performance Optimization (Lulu, May–Jul 2025): Analyzed workforce and workflow performance data via SAP BI/ERP, identified 6 operational bottlenecks, and combined performance metrics with survey findings into structured, actionable reports.
- End-to-End Power BI Performance Dashboard Project (Zoople Training): Cleaned and modeled Excel datasets in Power BI, built KPI/performance measures with DAX, and delivered an interactive dashboard for business performance reporting.
- Organizational Development & Client Stakeholder Management — Jewellery & Manufacturing Clients (HSJB, 2025): Led documentation and phased performance-restructuring plans for jewellery and manufacturing sector clients; coordinated multi-stage client rollouts and cross-functional stakeholder communication across engagement phases.

EDUCATION

MBA — Marketing & Human Resource Management 2023 – 2025
LEAD College of Management, Palakkad, Kerala

Bachelor of Computer Applications (BCA) 2020 – 2023
Nehru Arts and Science College, Coimbatore, Tamil Nadu

CERTIFICATIONS & LEADERSHIP

- Lean Sigma Green Belt (KPMG) | Working in a Digital World (IBM) | Digital Garage (Google) | Personnel Management Workshop (NIPM)
- Leadership: Mentor, National Entrepreneurship Conclave — Chairperson, National Youth Parliament
